INDEX TO VOLUME XXVII.

A

Abraham Portable Moulding Machine, 328
Alloys, Aluminium Copper, 104.
Alloys, Aluminium-Silicon, 34.
Aluminium Copper Alloys, 104.
Aluminium Foundry Practice, 129
Aluminium in Cast Iron, 247.
Aluminium in Steel, 14.
Aluminium-Silicon Alloys, 34.
Aluminium Snap Flasks, Adjustable, 444.
American Foundrymen's Association Convention Papers, 214.
Analysis of Dolomite Bricks, 104.
Annealing Grey Cast Iron, 182.
Apprenticeship and the Foundry Trade, 71, 117.
Apprenticeship Course in Foundry Practice, 7, 29, 43, 63, 100, 120, 143, 163, 180, 198, 217, 238, 251, 280 299, 317, 342, 352, 369, 397, 421, 439, 460, 507.
Apprentices, Foundry, 61.
Arc Welding, 110.

B

Basic Bessemer Steel, Correlation between the Physical and Chemical Properties of, 282.
Belgian Foundry Coke, 265.
B.C.I.R.A. Monthly Circular for April, 428
Birmingham Metallurgical Society, 77.
Birthday Greetings, Our, 62.
Borings, Briquetting Cast Iron, 222.
Brasses and Bronzes, Linear Contraction of a Series of, 441.
Brass Foundry Alloys, Modern, 354.
Brass Foundry Alloys, Modern, Discussion on, 482.
Brass Foundry Wastes, 88.
Brass, Magnetic Susceptibility and Iron Content of Cast Red, 44.
Brass, Theoretical Advantages of Electric Melting of, 104.
Bricks, Analysis of Dolomite, 104.
Briquetting of Brass Turnings, 483.
British Cast-iron Research Association, 316, 516
British Chemical Standards Movement, 221.
British Chemical Standard, New, 159,
British Foundry, Modern, 371.
British Foundry Practice, Ferrous and Non-ferrous 466.
British Industries Fair, 160.
British Moulding Machine, A New, 170.
British Science Guild, 150.
Bronze Alloy, New, 359.

C

Camber of Iron Castings, Discussion on, 111.
Carbon in Foundry Irons and Castings, Notes on, 484.
Case-hardening Method, A New, 184.
Casting Bronze in Green-Sand Moulds, 47.
Casting, Contraction and Shrinkage during, 312
Casting, In Search of the Perfect, 471.
Casting, Press Side, Making of a, 165.
Castings, An American Discussion on Iron, 144.
Castings, Heat Treatment of Steel, 320.
Castings, Internal Chill in, 85.
Castings, Notes on Grey Iron for Automotive, 399.
Castings, Tentative Specification for Grey Iron, 449.
Castings, Value and Relation of Test Bars to, 248.
Casting without Risers or Feeding, 97.
Cast Iron, Aluminium in, 247.
Cast Iron, Annealing Grey, 182.
Cast-iron Borings, Briquetting, 222.
Cast Iron, Criticism of the Physics of, 261.
Cast-iron Cylinders, Strength of, 348.
Cast Iron, Effect of Special Elements on, 3.
Cast Iron, Effect of Special Elements on, Discussion on, 31.
Cast Iron, Desulphurisation of, 463.
Cast Iron, Influence of Dissolved or Occluded Gases in, 209.
Cast Iron, Inverse Chill and Volume Changes of, 83.
Cast Iron, Physics of, 257.
Cast Iron, Test Bars for, 189.
Chemical Symbols as an Aid to Foundry Progress, 220
Coke as a Blast-furnace Fuel, 281.
Coleman Core Stoves, 132.
Congress, French International Foundry, 83.
Contraction of a Series of Brasses and Bronzes, Linear, 441.
Converters, Operation of Small Side Blown, 122.
Co-operation between Drawing Office, Pattern Shop and Foundry, 156.
Core-maker and the Moulder, 447.
Core-making, Note on, 78.
Core Stoves, Coleman, 132.
Correspondence :—

Furnaces, Use of Liquid Fuel in Metallurgical, 410.

G

Gating, Feeding, and Casting, Discussion on, 15.
German Aluminium Industry, 140.
German Iron and Steel Industry, 223, 262.
German Iron Foundries during Last Quarter, 1922, 87.
Glasses, Furnace and Foundry, 287.
Goggles, Safety First and Foundry, 396.
Grading of Pig-Iron, 25.
Grey Cast Iron, Annealing, 182.
Grey Cast Iron, Notes on, 270.
Grey Cast Iron and Grey Iron Castings, Discussion on, 379.
Grey Iron Castings, Some Notes on, 250.
Grinder, Planing-Machine Knife-, 193.

H

Hardness in Cast Iron, 424.
High-Speed Steels, 6.
How Moulders are Paid, 140.
Hytempite, 142.

I

Institution of British Foundrymen.

ANNUAL CONFERENCE.

Annual Conference, 490, 515.
Discussions on Conference Papers, 519.
Manufacture of Steel Castings and Preparation of Sand, 499.
Manufacture of Steel Castings in the United States, 477, 527.
Notes on Carbon in Foundry Irons and Castings, 484.
Oil-Sand Cores and Binders, 474.
Presidential Address, 493.

Birmingham Branch.

Aluminium Foundry Practice, 129.
Annual General Meeting, 360.
Few Points on Pattern-making, 113.
Some Failures in Malleable Castings, 295.

Coventry Branch.

Brief Survey of the Foundry Industry, 75.

East Midlands Branch.

Annual Meeting, 313.
Co-operation between Drawing Office, Pattern Shop and Foundry, 156.
Discussion of Mr. E. Longden's Paper on "Gating, Feeding and Casting," 15.
Discussion on Dr. Johnson's Paper on "The Shrinkage of Metals," 424.
Shrinkage of Metals, 393.

Lancashire Branch.

Annual Meeting, 404.
Coremaker and the Moulder, 447.
Discussion on Evolution of the Foundryman, 240.
Discussion on Mr. Rowe's Paper on Modern Brass Foundry Alloys, 482.
Evolution of the Foundryman, 133, 178.
Modern Brass Foundry Alloys, 354.
Practical Cost System for the Small- or Medium-Sized Foundry, 190, 215.
Visit to Stanton Ironworks, 428.

Burnley Section.

Apprenticeship and the Foundry Trade, 71, 117.
Discussion on the Camber of Iron Castings, 111.
Hardness in Cast Iron, 424.
Practice and Problems in a Non-Ferrous Foundry, 382.

London Branch.

Annual General Meeting, 404.
Discussion on Grey Cast Iron and Grey Iron Castings, 379.
Discussion on Dr. Longmuir's Paper on "Brass, Iron and Steel Foundry Practice, 16.
Discussion on Mr. Smalley's Paper on "Moulding Sands," 481.
Facts about Sound Castings, Feeding Heads, Runners and Venting, 289.
Interpretation of Photo-Micrographs and Diagrams in Connection with Foundry Alloys, 263.
Moulding Sands, 435, 457.
Notes on Grey Cast Iron, 270.
Notes on Malleable Iron Production, 309, 329.
Some Notes on Grey Iron Castings, 250.

Newcastle Branch.

Annual Dinner, 183.
Discussion on Mon. E. V. Ronceray's Paper on "Facts about Sound Castings, Feeding Heads, Runners and Ventings, 336.
Discussion on Mr. Smalley's Paper on Volume Changes of Cast Iron on Solidification, 137.
Examination and Photography of Cast Iron under the Microscope, 273.
Facts about Sound Castings, Feeding Heads, Runners and Venting, 289
General Meeting—Junior Section, 328.
Inaugural Address, 194.
Volume Changes of Cast Iron on Solidification, 89.

Sheffield Branch.

Annual Dinner, 102.
Discussion on Machine Moulding, 68.
Discussion on Mr. Smalley's Paper on "The Effect of Special Elements on Cast Iron," 31.
Effect of Special Elements on Cast Iron, 3.
Notes on Iron, Steel and Brass Foundry Practice, 340.
Surface and Internal Defects in Iron Castings, 200, 235.

West Riding of Yorkshire Branch.

Annual Meeting, 306.
Mechanical Appliances in the Foundry, 171.
Meeting at Bradford, 184.
Institute of Metals, 128.
Internal Chill in Castings, 85.
Interpretation of Photo Micrographs and Diagrams in Connection with Foundry Alloys, 263.
Introspective, 1923, 1.
Inverse Chill and Volume Changes of Cast Iron, 83.
Inversely Chilled Iron, 23.
Investigation of Daralumin, 65.
Iron and Steel Institute, 101, 294, 388.
Iron and Steel Problems, Lorraine, 119.
Iron and Steel Works, Dunswart, 30.
Iron Castings, American Discussion on, 144.
Iron Industry, An Appeal to the Malleable, 423.
Iron, Inversely Chilled, 23.
Iron, Steel and Brass Foundry Practice, Notes on, 340.
Iron, Steel and Brass Foundry Practice, Discussion on, 16.

J

"John Surtees" Examination, 123.

L

Lathes, Wood Face-Plates for Pattern Shop, 74.
Lectures, Private Technical, 150.
Liquid Fuel in Metallurgical Furnaces, Use of, 410.
London Foundrymen Visit Charlton, 84.
Lorraine Iron and Steel Problems, 119.

M

Machine Moulding, Discussion on, 68.
Machine Mouldings Methods, Discussion on Mr. T. F. Hardyman's Paper on, 283.
Magnesium and its Alloys, 391.
Magnesium, Prospects of, 387.
Magnetic Susceptibility Sand Iron Content of Cast Red Bars, 44.
Magnet, Scrap Lifting, 253.
Malleable Castings, Some Failures in, 295.
Malleable Iron Cast in Small Quantities, 426.
Malleable Iron Industry, An Appeal to the, 423.
Malleable Iron Production, Notes on, 309, 329.
Manchester Conference, 409, 491.
Manchester Conference, Papers for, 327.
Manchester Conference Programme, 412.
Manchester Conference Visits, 517.
Manganese in Pig-Iron, Determination of, 216, 243.
Manufacture of Neutral Sulphate of Ammonia by Direct Absorption, 311.
Mechanical Appliances in the Foundry, 171.
Mesothorium, 132.
Methods, Machine Moulding, 229.
Mixing Oil and Sand, 473.

XUM

Modern British Foundry, 371.
"Moulders" of the Industry:—
